

MEDIA RELEASE

15 November 2018

FINANCIAL CLOSE OF 175 MW FINLEY SOLAR FARM IN AUSTRALIA BY ESCO PACIFIC

We are pleased to announce that Esparity Solar's sister company ESCO Pacific has reached financial close on the 174.9-MWp Finley Solar Farm project in New South Wales, Australia. James Sibony, Main Board Director ESCO Pacific and CEO of Esparity Solar said: "ESCO Pacific was a start-up in 2015 and to have reached financial close on 500MW of projects in the space of three years is an exceptional achievement. ESCO's success and track record of developing bankable projects demonstrates the continuing growth and resilience of the solar business worldwide. Esparity Solar is fortunate to count on the support on a number of shareholders and directors who are also investors in ESCO Pacific. We are pleased to bring all our combined Australian experience to the Spanish market, particularly in the fields of solar project development, PPA structuring, EPC negotiations and financing."
